GO | CONFIDENTLY

Wiley X was established in 1987 by U.S. Veteran Myles Freeman Sr. with a focused determination to create the world’s best protective gear for those that protect our country.

As pioneers in protective eyewear, we believe there is a specific way to make gear for the world’s harshest environments. Decades of innovation and design refinement have taught us that you never cut corners, you take care of those you’re supposed to protect, you stand behind your promises, you constantly innovate and you don’t let up. Ever. That’s the reason our products continue to inspire confidence in everyone who wears them, regardless of the situation and in spite of whatever they encounter.

We’ve built our company, our brand and our reputation by creating products that deliver uncompromising protection, and we always will. Go Confidently.

# CAPTIVATE™

In 2020, Wiley X is redefining color by introducing our all-new, patented Captivate™ technology. Captivate™ lenses filter out ambiguous light, increasing clarity and definition with vibrant contrast and vivid detail. Offered in multiple lens colors to provide situation-specific benefits in variable light conditions. Captivate™ lenses block all UV/HE rays and meet ANSI Z87.1 and EN.166 safety standards for unparalleled protection.

The visible light spectrum runs in a range of wavelengths from Ultraviolet to Infrared and is measured in nanometers. A typical human eye will respond to wavelengths from about 380 to 740 nanometers.

CAPTIVATE™ LENSES FILTER OUT HARMFUL UV / HEV LIGHT AND EYE-CONFUSING LIGHT TO MAKE THE COLOR SPECTRUM CLEARER. THE RESULT IS INCREASED CONTRAST AND GREATER CLARITY.

## VISUALIZING THE LIGHT SPECTRUM

EVEN THOUGH THE HUMAN EYE CANNOT SEE THE ENTIRE LIGHT SPECTRUM, CERTAIN AREAS ARE DIFFICULT FOR THE EYES TO SEE CLEARLY, WHILE OTHER AREAS ARE VERY DANGEROUS TO YOUR EYES' HEALTH. CAPTIVATE LENSES FILTER OUT HARMFUL RAYS AS WELL AS LIGHT THAT CONFUSES THE EYE, INCREASING CLARITY AND DEFINITION WITH VIBRANT CONTRAST AND VIVID DETAIL.

## CAPTIVATE™

COLOR REDEFINED

CAPTIVATE™ LENSES FILTER LIGHT TO REVEAL VIVID DETAIL,  
VIBRANT CONTRAST, AND OPTIMAL CLARITY.  
CAPTIVATE™ REDEFINES COLOR.

## THE VISUAL BENEFITS OF CAPTIVATE™ LENSES

### ENHANCED COLOR

CAPTIVATE™ filters out confusing light where blue merges with green and green merges with red. This allows more "clear" lightwaves where it's easier for your eyes to see, resulting in enhanced blues, greens and reds for a true color experience.

### INCREASED ALERTNESS / ELEVATED MOOD

CAPTIVATE™ lenses allow the beneficial side of blue light to be seen. This helps maintain the body's Circadian biological clock and the sleep/wake cycle. This beneficial blue light also boosts alertness, helps memory and elevates mood.

### BLOCKS UV / BLUE HEV RAYS

CAPTIVATE™ blocks the UV (Ultraviolet) and HEV (High Energy Visible) blue rays that are harmful to our eyes, reducing the risk of damage to retinal cells and age-related macular degeneration while also reducing haze.

### GREATER CLARITY

Blue light with shorter wavelengths and higher frequencies scatter light and create haze. By filtering out this "bad" blue light, CAPTIVATE™ removes the haze and allows distant objects to be seen more clearly.

### INCREASED CONTRAST

CAPTIVATE™ technology is offered in a variety of tint options so you can fine-tune your choice of lens based on the specific needs of your environment.

### BETTER DEPTH PERCEPTION

By eliminating the blue light haze while separating and enhancing colors in the visual spectrum, CAPTIVATE™ lenses will enhance depth perception.

## THE RESILIENCY OF CAPTIVATE™ LENSES

### OLEOPHOBIC PROPERTIES

Wiley X utilizes a proprietary oleophobic coating on all Captivate lenses to create a smoother lens surface, which helps to keep dust, dirt, oil, snow and water from sticking to the lens. This in turn helps prevent smudging and water spots, making the lenses much easier to clean than an uncoated, standard lens.

### SCRATCH/ABRASION RESISTANCE

Captivate lenses achieve a Bayer 7 rating\* for scratch resistance. A rating of 4 or higher equates to a premium coating.

# CLARITY

While Wiley X was founded on a commitment to protect, we apply the same uncompromising spirit to building each Wiley X lens for optimal clarity. All of our lenses are ANSI-rated, ensuring crisper, clearer optics, enhanced color contrast, minimized distortion and accuracy of vision. From Digital Edge Thinning and precise prescriptions—customized in our very own lab—to proprietary technologies such as Filter 8™ Polarized lenses and our all-new, patented Captivate™ Polarized color enhancing lenses, Wiley X continues to innovate, tirelessly improving and developing technologies to provide unmatched clarity in every lens we build.

## ANSI OPTICAL CLARITY

All Wiley X lenses meet the strictest ANSI optical clarity requirements. We tirelessly test all of our lenses for the accuracy of vision, refractive, resolving and prismatic powers. Unlike ordinary lenses that can bend light and distort the true size of objects, our lenses are de-centered and tapered to ensure true spatial relationship of objects and distortion-free clarity.

## FILTER 8™ POLARIZED

Our proprietary Filter 8™ polarized lens technology filters light to reduce glare and block reflective light. It includes two Slick™ hydrophobic coatings, two Selenite™ polycarbonate lenses, two T-Shell™ scratch-resistant layers, one Violet 4™ anti-reflective coating, and a Filter 8™ polarized film layer that creates 100% polarization and gives you 100% UV protection. This process increases durability and ultimately extends the life of your eyewear.

## LENS ANATOMY

### CAPTIVATE

#### GREY BASE LENSES

- **Captivate Polarized Blue Mirror**  
Cuts glare from severe sunlight and excels in uncovered environments that are typically associated with saltwater fishing. Light transmission: 10%
- **Captivate Polarized Red Mirror**  
Elevates greens while providing maximum shade. Keeps colors true. Great for deep water fishing to cut top-water glare and severe sunlight. Excels in environments associated with saltwater fishing. Light transmission: 13%
- **Captivate Polarized Grey**  
Darkens the light while brightening the world! Provides maximum shade while enhancing contrast of greens, blues, and yellows. Great for general daytime use. Light transmission: 13%

#### GREEN BASE LENSES

- **Captivate Polarized Rose Gold Mirror**  
High-performance on slightly cloudy/overcast days. Further enhances contrast while providing a true color experience. Great for outdoor activities on bright days. Light transmission: 15%
- **Captivate Polarized Platinum Flash**  
Glare reduction across all environments. Further enhances contrast while providing a true color experience. Great for outdoor activities on bright days. Light transmission: 13%

#### COPPER BASE LENSES

- **Captivate Polarized Bronze Mirror**  
Cuts down glare making it perfect for sight fishing in shallow water, red clay, or brackish water. Also a good option for outdoor activities such as baseball, golf and cycling. Light transmission: 15%
- **Captivate Polarized Green Mirror**  
High-contrast tint enhances clarity in blue colors and differentiating greens/browns. Provides enhanced sight while fishing on flats, rivers, and streams. Light transmission: 12%
- **Captivate Polarized Copper**  
High-contrast tint that equalizes the environment. Red, green and yellow color enhancer. Cuts down glare making it perfect for sight fishing. Light transmission: 16%

### FILTER 8 / STANDARD

#### GREY BASE LENSES

- **Silver Flash / Polarized Silver Flash**  
One of the darker lenses Wiley X offers. Multi-coat, Z-Oxide mirror over smoke lenses. Reduces glare. Excellent on bright days. Light transmission: 12%
- **Crimson Mirror / Polarized Crimson Mirror**  
Smoke grey base. Excellent for constant sun/very bright conditions. Ideal mirror for driving, snowboarding, skiing, etc.. Reduces glare and improves contrast. Light transmission: 16%
- **Smoke Grey / Polarized Smoke Grey**  
Provides glare reduction without distorting colors. Excellent in bright conditions and a perfect all-around choice for sports on water and land. Light transmission: 14%-20%
- **LA™ Light Adjusting Smoke Grey**  
Photochromic lenses darken and lighten depending on brightness for maximum optical clarity. Light transmission: 85% to 17% in sunlight

#### AMBER BASE LENSES

- **Venice Gold Mirror / Polarized Venice Gold Mirror**  
Amber base lenses are great for sunny conditions; Polarized version is ideal for fishing in shallow water and target shooting. Light transmission: 12%
- **Emerald Mirror / Polarized Emerald Mirror**  
Amber tinted lenses with green mirror designed to amplify contrast for superior visual performance. Distinct colors and crisp acuity in all light conditions. Light transmission: 15%
- **Amber / Polarized Amber**  
Greatly reduces high energy visible light and haze while enhancing contrast and depth perception. Ideal for low-light/ cloudy days. Light transmission: 13%

#### GREEN BASE LENSES

- **Blue Mirror / Polarized Blue Mirror**  
Multi-coat green lenses made for the open water. Absorbs reflections across mirror surfaces and diminishes glare. Ideal in bright conditions. Light transmission: 11%

- **Platinum Flash / Polarized Platinum Flash**  
Multi-coat Z-Oxide mirror over smoke green lenses provide maximum glare reduction without distorting colors. Great for general daytime use. Light transmission: 13%
- **Smoke Green/Polarized Smoke Green**  
Provides maximum glare reduction without distorting colors. Reduces glare and brightens shadows. Great for general daytime use. Light transmission: 23%

#### OTHER BASE LENS OPTIONS

- **Copper** Superior visual definition. Makes orange-colored targets stand out. Light transmission: 12%
- **Bronze/Polarized Bronze** Superior visual definition, increased contrast, and enhance ground level contours in most light conditions. Ideal for driving or motorcycle riding. Light transmission: 14-20%
- **Polarized Yellow** For greatest clarity in low-light situations. Ideal for fishing, hunting, and other outdoor sports. Light transmission: 30%
- **Vermilion** Best for medium to low-light conditions. Sharpens contrast and brightens targets. Ideal for water activities, skiing, and extreme sports. Light transmission: 50%
- **Purple** Best for medium to low-light conditions. Sharpens contrast and brightens targets. Light transmission: 38%
- **Light Rust** Filters out most blue light waves, the chief component of glare and haze. Enhances contrast in medium to low-light conditions. Light transmission: 86%
- **Pale Yellow** Best light enhancing lens tint. Increased contrast in low to extremely low-light/hazy/dull conditions. Light transmission: 86%
- **Orange** Best light enhancing lens tint. Increased contrast in low to extremely low-light/hazy/dull conditions. Light transmission: 86%
- **Clear** Maximum light transmission. See precise color values. Hazy or overcast, dusk/dawn conditions. Light transmission: 89%

# PROTECTION

Founded on supplying military forces and law enforcement personnel with top-of-the-line ballistic eyewear, Wiley X continues to hold safety as our priority, adopting this approach for our entire line and building eyewear with the highest levels of protection available. From our ANSI Z87.1-rated sunglasses to our ASTM F803-rated Youth Force® lines, Wiley X is constantly innovating to deliver unparalleled protection, clarity, and style to every pair of glasses we build.

## ANSI EXPLAINED

ANSI stands for the American National Standards Institute. ANSI doesn't actually set standards; rather, it approves the establishment of committees that set the rules that companies use to develop products. It oversees the testing process and approves the final products as American National Standards, or ANSI-rated.

ANSI Z87.1 prescribes the design, performance specifications, and marking of eye and face safety products—setting the standards they must meet for protection and clarity. Products in this category include glasses, goggles and face shields (among others).

## THE MARK OF HIGH PERFORMANCE ANSI RATED LENS AND FRAME MARKS

- WX** Precedes all ANSI rating marks and designates Wiley X as the manufacturer of the product.
- Z87** The eyewear frame and temples or goggle frame passes the ANSI high velocity and high impact test.
- 2** The frames can be fitted with a prescription lens, which is the case with most Wiley X eyewear.
- +** The spectacle or goggle frame, temples and lenses have been tested to the High Mass and High Velocity Impact requirements of ANSI Z87.1 Safety Standard.
- S** The lens is a filter or a shaded lens (not clear).
- V** The lens is variable-tint photochromic (light adjusting).

### ANSI HIGH MASS IMPACT TEST

Wiley X ANSI-rated frames and lenses must withstand the impact of a 1.1lb. projectile dropped from a height of 50" to ensure your eyes are protected from unexpected blunt force impacts.

### ANSI HIGH VELOCITY IMPACT TEST

Wiley X ANSI-rated frames and lenses must withstand the impact of a .25" diameter steel ball. For spectacles the projectile must be traveling 150fps and for a goggle 250fps.

### V0 BALLISTIC TESTING

Several Wiley X eyewear models are tested to V0 ballistics which consists of a spectacle frame and lens being impacted with a .15 caliber projectile traveling 640-725fps depending on Mil-Standard and model, or a goggle frame and lens with a .22 caliber projectile traveling 550-590fps depending on Mil-Standard and model. This test is meant to simulate shrapnel that may be encountered on the battlefield.

### REMOVABLE FACIAL CAVITY™ SEALS

Fine dust and pollen, as well as wind, can cause long-term eye irritation, such as Dry Eye Syndrome. Peripheral light can also diminish optical clarity. Wiley X's removable soft foam Facial Cavity™ Seals block out even the finest irritants and peripheral light, protecting the eyes and allowing polarized lenses to perform at peak levels.

### YOUTH FORCE® ASTM F803 STANDARD

Our Youth Force® Sports Protective Eyewear meets ASTM F803 safety standards and is rigorously tested to assure maximum protection and clarity in every pair.

Side shield tabs fit into slots on the frame.

Slide the side shield forward to permanently lock in place.

### WORKSIGHT® ANSI Z87.1 PROTECTIVE SIDE SHIELDS

WorkSight® glasses come with ANSI Z87.1 safety rated removable side shields. Permanent side shields also available for all styles.

### ALTERNATIVE FIT

Wiley X Alternative Fit styles are designed for people who have high cheekbones and a shallow nose bridge. By widening the nose bridge, the eyewear sits higher on the face to prevent contact with the cheeks.

# PRESCRIPTION

Every pair of Wiley X lenses is capable of a custom prescription, meticulously crafted for precision by our Lab Partner. Digitally mapped and tested to rigorously high standards, each prescription lens is etched and certified by Wiley X as a guarantee that you’re getting the highest quality prescription lenses available.

## RX LAB PARTNER

In Wiley X’s preferred partner lab, top optical professionals work with state-of-the-art lens manufacturing equipment to create extremely precise lenses. With the highest optical and quality standards in the industry, our lab yields prescriptions that are 10 times more accurate than those of conventional labs.

### DIGITAL EDGE THINNING

Through a process called Digital Edge Thinning, our proprietary lab has the ability to develop high-prescription lenses for eight base frames that meet the highest safety ratings. Digital Edge Thinning is a lens technology developed for enhancing vision for higher prescriptions in wraparound sports frames. This process allows us to create lighter and thinner lenses for prescriptions as high as -7.00 to +5.00 in most styles, providing improved appearance without compromising frame integrity.

### GUARANTEED QUALITY

Every prescription lens is etched and certified by Wiley X for authenticity to guarantee that you’re getting the clearest, highest quality lenses available.

### QUICK TURN

Our proprietary lab of lens manufacturing experts allows a quick turnaround time for prescription lenses.

### STYLE

When fitted with prescription lenses, our frames require minimal changes, offering the same look and feel before and after the prescription is fitted.

## LENS OPTIONS

Wiley X offers three types of lenses directly from our labs. The only way to certify that your prescription lenses meet ANSI Z87.1 standards is to use the Wiley X preferred partner laboratory.

### DIGIFORCE™ LENSES

Wiley X DigiForce™ digital lens technology allows us to customize Rx lenses for our high-wrap frames. By combining the wearer’s prescription and frame measurement, our advanced digital lens process creates crisper and clearer optics, enhances color contrast, and minimizes distortion.

#### Digiforce™ Single Vision

Our digital lens technology customizes each prescription to the wearer’s face form, resulting in crisper and clearer optics compared to standard single vision prescriptions.

#### Digiforce™ Road & Trail

This design offers riders and drivers edge-to-edge clarity giving the wearer a seamless progression from road views to dash gauges.

#### Digiforce™ Progressive

Designed for extreme wraps, our digital lens technology offers a wide range of vision corrections making sure that the frame wrap angle, tilt, and vertex distance provide the wearer superior quality vision.

#### Digiforce™ Compute

Specially designed for computer and tablet distances to minimize digital eye strain.

### PERFORMANCE LENSES

Performance lenses are specially designed to provide a wide range of single vision and progressive prescriptions for WorkSight®, Youth Force® and the WX Propulsion. Tailored to each patients’ needs, Performance lenses are perfect for adults and children who are looking for well-rounded protective eyewear that is functional and fashionable enough to wear every day.

### CONVENTIONAL LENSES

Conventional lenses provide a wide range of single vision and progressive lens prescriptions that are familiar to most consumers. All of our Conventional lenses are digitally processed and can be customized with all colors and mirrors that Wiley X offers.

## WX LENS TREATMENTS

### MIRROR

Durable and scratch-resistant, Wiley X mirrors feature a double sided dipped and thermally cured hardcoat, with premium AR coating included.

### ANTI-REFLECTIVE

Wiley X premium AR coating provides an oleophobic, hydrophobic and anti-static layer, providing crisper vision and backside UV protection.

### WX BLUE ANTI-REFLECTIVE

WX BLUE is a premium “Blue Blocking” AR, specially designed to filter out the harmful blue light produced by PC’s and handheld digital devices. WX BLUE AR offers superior scratch resistance and features hydrophobic and oleophobic layers that repel water, smudges and fingerprints.

### SCRATCH RESISTANT HARD COATING

Super tough thermally cured hardcoat, highly durable and protective.

## WX PERFORMANCE OPTIONS

### POLARIZED LENSES

Acting as a visual filter, polarized lenses block blinding glare and improve visual contrast.

### PHOTOCHROMIC LENSES

Lenses transition from light to dark color in accordance with UV exposure and temperature. Also available in various polarized options.

### TINTED LENSES

Performance tints for any activity. Carefully calculated light transmissions and densities are available in a wide array of colors to suit wearer’s personal/lifestyle needs.

---

## CLIMATE CONTROL SERIES

WITH EXCEPTIONAL PROTECTION AGAINST SWEAT, DEBRIS  
AND WEATHER, THERE ARE NO LIMITS TO WHAT YOU CAN DO.  
OUR CLIMATE CONTROL SERIES BLOCKS OUT THE ELEMENTS  
SO YOU CAN FACE THEM WITH CONFIDENCE.

# PRODUCT WARRANTY

**NON-PRESCRIPTION WILEY X, INC. EYEWEAR** has a limited lifetime warranty covering any and all manufacturing defects in material and workmanship.

**YOUTH FORCE® AND WORKSIGHT® EYEWEAR** are warranted against defects in materials or workmanship for a maximum period of 2 years.

**NON-PRESCRIPTION JOHN DEERE® AND DVX™ EYEWEAR** is warranted against defects in materials or workmanship for a maximum period of 1 year. (John Deere® warranty applies to USA and Canada only).

**PHOTOCHROMIC LIGHT ADJUSTING™ LENSES** are warranted against defects in materials or workmanship for a maximum period of 18 months (proof of purchase for Photochromic Light Adjusting™ lenses is required).

**GLOVES** are warranted to be free of manufacturing defects in material or workmanship for a maximum period of 2 years.

**SCOPE OF COVERAGE:** Wiley X will repair or replace covered items at the sole discretion of Wiley X, as needed and as available (identical or equivalent style) at no charge. Out of warranty items may be repaired (if repairable), replaced, returned, or destroyed, at the option and sole expense of the purchaser.

**EXCLUSIONS:** This warranty does NOT extend to and excludes:

- a) any and all Wiley X products purchased through Amazon, eBay, or any non-authorized 3rd party websites, dealers or labs
- b) damage resulting from normal wear and tear, including but not limited to scratched lenses and broken frames, hinges, and nose pieces
- c) damage resulting from abuse or misuse,
- d) damage resulting from tampering or customer modification
- e) damage resulting from exposure to harmful substances, elements or conditions
- f ) other damage to covered items not resulting from a manufacturing defect in materials or workmanship as Wiley X shall decide in its sole discretion, or
- g) lost or stolen items

# PRESCRIPTION WARRANTY

The following prescription (RX) warranty extends to Wiley X, Inc., DVX™, and John Deere® eyewear.

**RX WARRANTY:** Prescription orders processed through Wiley X, Inc. will have a two (2) year warranty from the date of purchase on frames and lenses deemed by Wiley X, Inc. to have manufacturing defects. Prescriptions filled by non-authorized labs will void all Wiley X, Inc. frame and lens warranties. Prescription frame and lens warranties must be handled through the local retailer / dispensing optician from which they were originally purchased.

**SCRATCH/COATING WARRANTY:** Wiley X, Inc. will provide a one (1) time scratch redo for lenses with frontal surface scratches due to normal wear for one (1) year from the date of purchase. If a coating was purchased (anti-reflective, anti-scratch, anti-fog, or a mirror) the warranty is extended to a one (1) time redo within two (2) years from the date of purchase. The customer will receive eyewear in the identical form (same frame, lenses, prescription, etc.)

**DOCTOR REMAKE:** A one (1) time doctor remake on Wiley X, Inc. made prescription lenses is permitted within a forty-five (45) day period from the original order date. The dealer will be charged in full for the remake then will subsequently receive a credit when the original prescription glasses are returned to the Wiley X, Inc. Prescription Department. Original orders must be returned within thirty (30) days of the remake order. All doctor remakes will be billed a \$10.00 shipping fee.

## PRESCRIPTION WARRANTY continued

**RX CHANGES/CANCELED ORDERS:** If the lenses are not in process, prescription changes and order cancellations will be accepted at no charge. Any requests made after a customer order has been put in process will be charged at 50% of the dealer cost.

**NON-ADAPTS:** Dealer will have forty-five (45) days to return a prescription order that is deemed “non-adapt” by their customer. In this instance, the dealer will receive a full refund on the frame and 50% credit on the RX lenses and coatings. No credit or refund will be issued for non-adapts submitted after forty-five (45) days.

**LAB ERRORS:** In the event of lab error, prescription lenses will be replaced at no cost within a forty-five (45) day period of the original order date. Redo will be credited upon receipt of original frame and lenses.

**PATIENT OWNED FRAME (POF):** Wiley X, Inc. accepts POF orders, however, frames must pass Wiley X, Inc. quality inspection. Prior to sending the POF, please verify that the prescription and the measurements are within the tolerance of the Wiley X, Inc. RX Frame Parameters. Please remove any existing prescription or non-prescription lenses from the frame prior to shipping. Wiley X, Inc. will not provide any warranty or be held responsible for any lost or damaged lenses on previous prescriptions sent in with a frame.

**DISCONTINUED PRODUCTS:** Wiley X, Inc. will not RX frames that have been discontinued for longer than six (6) months.

**SHIPPING:** Please package your POF and/or return product securely and use a traceable carrier. Wiley X, Inc. is not responsible for packages lost or damaged during transit caused by carrier or any outside factor.

**PLEASE NOTE:** Due to the nature of a high wrapped frame and in order to achieve superior optical quality, prescription lenses will be compensated accordingly with the consideration of wrap angle, tilt, and vertex distance to be customized to fit your customer’s vision needs. This may result in prescription power differential from the one your eye care professional has prescribed. Please do not hesitate to call the Wiley X, Inc. Prescription Department with questions at 888.210.8926

All prescription sales are final

# RETURNS AND EXCHANGES

Returns and exchanges will not be accepted without receiving prior authorization to include an assigned return authorization number. For every one item returned, at least one item must be purchased. Returns must be in resalable condition, as determined by Wiley X for product not discontinued longer than six months. All returns must be shipped prepaid from point of origin, unless prior arrangements have been made. No COD returns accepted. New orders resulting from exchanges will be shipped upon receipt of returned merchandise unless other arrangements have been made with Wiley X. Customers are responsible for all shipping charges, both inbound and outbound. Returns should be sent to the attention of the RETURN DEPARTMENT.

# TERMS AND CONDITIONS

All Wiley X models may be combined when compiling a quantity order. Extreme care is taken when packaging all products we ship. If a discrepancy occurs, a claim should be made immediately.

Standard Terms: NET30 (upon credit approval); Credit Card (Visa, Master Card, Discover, American Express).
